

Out of the in-basket

HARRY RICKARD bought the perfins collection offered by LARRY OWEN in the November/December Bulletin. Harry says he will use the collection to add to his own and as a reference base for his new column.

EDWARD FORD came through with a copy of the July/August 1977 Bulletin for the Library in response to our appeal in the November/December issue. Thanks Ed. And thanks also to others who offered to help.

RAY CROW is keeping perfins before the general collecting public. Ray devoted a recent "Stamp Lamp" column to perfins. Ray writes the column for STAMP COLLECTOR on a regular basis.

STAMP COLLECTOR also carries a column by member LEA BLAUVELT. Lea writes "This Week on Stamps," a calendar of historical events noted on postage stamps. It is an interesting column even for those of us who only collect perfins.

JAMES P. EHRBAR shares this cover of the UT/Co pattern used by the Union Trading Company of Hong Kong. The cover bears four examples of the perfin. Ehrbar says he isn't a Hong Kong collector and would be open to a trade for U.S. perfins he can use. If you want to swap, contact him at 1250 Eastwood Drive, Anaheim, CA 92805.
